You are invited to a Café conversation to officially launch Chooseday and explore its potential.

Chooseday is a new people movement in response to climate change. It is designed to make Tuesdays each week a focus for lifestyle reinvention. Chooseday begins in Bristol this October with 'Tuesdays without cars' - a challenge to 'choose to leave our cars at home' on this one day each week. Other campaigns will follow.

This café will draw people together from across the city to explore how Chooseday might catch the public imagination. We need your ideas! Come and let's build the biggest partnership that Bristol has ever seen.
